

I am writing to tell you how much we enjoy K-LOVE radio here in Ardmore, Oklahoma. I know so many people who are encouraged and uplifted by their music and positive shows. Many adults as well as teens listen to K-LOVE and it is giving people here an option other than country, rock, or oldies which to me is very important. I believe this station is very much needed here to encourage our young people to have strong morals, good values, and respect for their parents and authority. I believe this station is an asset here for those reasons. Just last spring, they helped host an evening with the group Casting Crowns as a fund raiser for our FCA here and we had a huge response when their personalities went on before the show. Please do not displace K-LOVE by an LPFM broadcaster-we finally have something great to listen to!!!!
